Global Grace Health

OUR MISSION

To advance health, hygiene, and wellness globally through:

SCIENTIFIC
RESEARCH

MODERN
TECHNOLOGY

EDUCATION

INNOVATIVE
METHODOLOGY

WHO WE ARE

Global Grace Health is a non-profit organization. It is through giving and serving that we truly get. We always believed that where there is a vision, there will be a provision. Firstly, this vision was grasped by a few passionate doctors and humanitarians. We quickly became a team and ran with the vision.

We aim to provide CARE and COMPASSION with COMMITMENT in reaching the unreached. We aim at fighting for needy, and illuminating people's lives with hope, compassion and empathy.

We began as small group of friends coming together to walk the extra-mile beyond their call of duty has evolved into a great team working in perfect harmony.

GGH Impact

WHAT DO WE DO

awareness about preventive health.

To predict life-style diseases

To help improve patient care

To make clinical management

Enhance the effectiveness of rehabilitation

Educate clinicians on the advances in healthcare

To promote new medical devices

To encourage pharmaceutical innovation

IMPACT THROUGH GCF

Lives Reached	20,000
Volunteers	600
Countries	130
Events	200
Surgical Masks	1 Million +
Ventilators	325
Medical-Grade Oxygen Concentrators	265
Dialysis Machines	2
Vaccinations	5,000

ICU ON WHEELS LAUNCHED

A mobile coronavirus ICU (MCICU), built in a bus, was launched on Thursday

It has state-of-the-art facilities like ventilators, imaging, tele-radiology, e-ICU, ultrasound, AI-based risk stratification and contactless Covid-19 sample collection

Built at a cost of ₹1.5Cr, the MCICU is said to be the first such facility in the country

Robotic surgical oncologist, and CEO of Grace Cancer Foundation, Dr Chinnababu Sunkavalli, who designed this bus, said that this is a case study, and if the experiment works well, then four more mobile clinics would be built

The mobile clinic is expected to provide ventilators where there is a critical shortage, especially in district and block-level hospitals

The cost of this unit is 50% lower compared to that in a hospital

Health minister Eatala Rajender inaugurated the facility, which would be put to use in rural Nizamabad area
